

Luccin Masirika

Senior Frontend Engineer (React, Next.js, TypeScript, Vue.js) with over **7 years of experience** building fast, reliable, and user-friendly web apps for **AI** and **SaaS** companies.

I turn ideas into great products by creating beautiful, high-performing interfaces that work smoothly on any device. I care deeply about clean design, fast load times, and making sure every user has a great experience. I'm currently focused on building with **Rust** and **Solana**, bringing **Web3** ideas to life with efficient, scalable, and secure technologies.

WORK EXPERIENCE

ViaSay (AI SaaS)

France, Paris (Remote)

Sr Frontend Engineer

June/2024 - PRESENT

- **Led** the full frontend development lifecycle of a new **AI-powered SaaS** platform, from conception and requirements gathering to deployment and continuous monitoring, ensuring a seamless user experience.
- **Collaborated** cross-functionally with product managers, designers, and backend engineers to translate complex business requirements into intuitive and high-performing user interfaces.
- **Optimized the flow builder**, which initially supported only 50 nodes and now handles over 200 nodes, representing a **300% increase** in capacity, all while maintaining smooth performance.

Tech Skills: React, Vue.js, TypeScript, Jest, Cypress, Microfronted, Docker, Kubernetes, AWS

TECHNOLOGIES

Frontend: **Typescript** (6 years), **JavaScript** (7 years), **HTML5**, **CSS3**, **Reactjs**, **Next.js**, **Vue.js**, **Nuxt**, **Leptos**, **Tailwind CSS**, **Material UI**, **CSS**, **SCSS**, **Redux**, **Zustand**, **Context API**, **MobX**, **VueX**, **Jest**, **Cypress**, **Playwright**, **Vite**, **Webpack**, **Micro-Frontend**.

Backend: **TypeScript** (6 years), **Python** (2 years), **Rust** (1 year), **Go** (1 year), **Nestjs**, **Fast API**.

Others: **MySQL** (5 years), **MongoDB** (4 years), **Docker** (4 years), **Kubernetes** (2 years), **AWS** (2 years) .

Ever (AI SaaS)

Israel, Jerusalem (Contract, Remote - Israel)

- Sep/2024

Sr Senior Frontend Architect

July/2024

- **Architected** and implemented highly scalable systems utilizing React, Next.js, and NestJS.
- Successfully integrated microservices with robust **CI/CD pipelines**.
- Significantly enhanced system **performance** and security through advanced DevOps practices.
- Streamlined development workflows by implementing comprehensive testing strategies, rigorous code reviews, and containerization with **Docker/Kubernetes**.
- Consistently delivered solutions that precisely aligned with both business objectives and client requirements.

Tech Skills: React, Next.js, NestJS, CI/CD, DevOps, Docker, Kubernetes

AWARDS or CERTIFICATIONS

Saper pour coder (2019)
Native E-learning mobile application, 1st Prize Winner.

Complete Generative AI Course With Long Chain and Hugging Face (2025)

Mathematics-Basics to Advanced for Data Science And GenAI (2025)

Google Africa Developer – Mobile Web Specialist (2022)

Software Architecture & Design of Modern Large Scale Systems (2022)

MERN Stack React Node Ecommerce from Scratch to Deployment (2021)

Kadea (Ecommerce app)

DRC, Kinshasa

Sr Software Engineer

June/2023 - July/2024

- Conceived and developed **dynamic** and **responsive** applications using React,

Vue, and TypeScript, ensuring cross-device compatibility.

- Mentored junior developers, fostering a **collaborative environment** and **elevating team proficiency**.
- Engineered **user-centric interfaces** that perfectly aligned with overarching business objectives.
- Played a **pivotal role** in the successful adoption of a **microservices architecture**, significantly enhancing **system scalability** and **maintainability**.
- Streamlined development workflows and **accelerated project delivery** through the effective implementation of **Agile methodologies**.
- Consistently delivered **high-quality applications** that demonstrated **increased user engagement** and **satisfaction**.

Tech Skills: Reactjs, Vuejs, Nestjs, Microservices, Docker, UI/UX Design

Advanced JavaScript (2021)
React + Redux Course (2020)

LANGUAGES

French (Native)
English (Fluent)

Uptodate Developers (*SaaS & Web3*) Sr Software Engineer DRC, Kinshasa Jan/2021 - July/2024

- **Frontend Development (Next.js):** Spearheaded the development of highly responsive and accessible user interfaces utilizing Next.js, ensuring optimal user experience across various devices and assistive technologies.
- **Backend Development (Nest.js):** Architected and implemented secure, scalable, and high-performance APIs using Nest.js.
- **Database Optimization (Prisma & MySQL):** Optimized database queries and managed relational databases using Prisma ORM with MySQL.
- **Real-time Communication (WebSocket):** Implemented real-time updates and interactive features using WebSocket technology.
- **Open Source Contributions & Code Review:** Actively contributed to open-source projects, demonstrating a commitment to the developer community and best practices.
- **Performance & SEO Enhancement:** Implemented strategies to significantly enhance application performance and search engine optimization (SEO), resulting in faster load times and improved discoverability.
- **Agile Development & Timely Delivery:** Consistently delivered features on time within Agile sprint cycles, demonstrating strong project management skills and a commitment to meeting deadlines.

EDUCATION

University Of Kinshasa, Degree (M.Sc. Computer Science)
DRC, Kinshasa, 2013- 2018

PROJECTS

KoraTech (2025 - current). Web3 Payment – Built with Rust, Solana, and Next.js for a DeFi app.

ViaSay (2024 - current). AI chatbot built with Reactjs, Vuejs, Python and Ruby.

Ever Cloc (2024-2024). AI SaaS built with Nextjs and Nestjs.
